**Attachments:** Mega Merge rationale\_ac.docx

Hi Alan--

At long last, I had a chance to look over your changes. I also merged in Steve and Jeff's edits creating (I think, hope?) a comprehensive doc that captures everything. I was able to address some of the attorney comments but need to lean on the tech team's expertise for many of them. I flagged things that will need your eyes in yellow and questions/push back I have for the attorney's in green (but interested in your thoughts on those comments too).

Let me know what you think and happy to discuss.

Note: Although this doc has everything, I've only made it through the intro and your forestry sections. Haven't worked on pesticides yet since I know Jenny has plans for that or the other sections.

Allison

Jayne and Allison,

The attached includes changes to the riparian, roads and landslides sections of the rationale document based on comments from the tech team members and the managers. It also includes my responses to several of the comments. I would appreciate your thoughts on this so far. The "roads" section is a little "rough". It seems repetitive but I will let you be the judges. I know we are still waiting on the attorneys' comments which will likely take some time to address. I am going to be traveling Wed.-Friday this week and will not be working on this until I return on the 24<sup>th</sup>. I will try to review comments on the RTC before leaving on Wednesday.

Allison, welcome back!

Alan
